Corona Virus Community Update 3

Dear Parents and Carers

As mentioned in previous correspondence, the school has been contingency planning should the government issue a school closure instruction. Although this has not been decided, it is important that we do all within our power to allow for the delivery of education. With this in mind, I ask that you inform the school if your household has no access to the internet.

If your child does not have a facility to access the internet (computer, tablet or smartphone), we ask that you let us know by using the 'contact' facility on our website. A screenshot is located below to help you access this.

Please note that the school is only making contingency arrangements and no national decision has been made. Contact should not yet be made for other questions about how we plan for continued education at this stage and we are only gathering information to support this planning.

Today, we have begun issuing students with a 'login card' for school email access, this also allows access to a learning platform called Google Classroom. More guidance will be given around this should the need arise. In the meantime, I advise you to speak to your child about this card and keep it in a safe place.

Rest assured that staff are working hard to ensure that your child does not miss out on learning should schools be asked to close.

Thank you for your continued support.

Yours faithfully,
