

December 2017

## Dear Parents and Carers

As mentioned in my recent end-of-term letter, we would like to get feedback from all our parents and carers to support our improvement journey.

Your feedback is really important to help us in our mission to improve the school and ensure your child gets the best possible education. As you know, many changes have already taken place to improve school systems but there is still much to be done.

Please spare a moment to rate each area of 5 stars - 5 being the highest and 1 being the lowest. We will use this to inform our future planning.

As always, we thank you for your valued support and TOGETHER we can make a difference.

Please click on the link below to complete the survey.
