Student Healthcare Plans

Dear Parent/Carers,

We are currently reviewing all of our Individual Healthcare Plans (IHP) at Newsome High School inline with the advice outlined by the Department for Education. If your child has an Individual Healthcare Plan can you please inform the school and provide evidence of the document, so we can update the school database and inform the kitchen staff.

If you would prefer to meet someone from the school to complete the Individual Healthcare Plan or if you have any questions then please contact us on (01484 516712).

Your child's completed plan will provide helpful details about your child's medical condition, current medication, triggers, individual symptoms and emergency contact numbers. Furthermore, the plan will help the school staff to better understand your child's individual condition.

Please make school aware when the plan is amended or updated. However, if you have already supplied the relevant information and there are no amendments to the original submission then you are not required to resend the Individual Healthcare Plan at present.

We look forward to receiving your child's Healthcare Plan.

Yours sincerely,

Miss J Williams
Office Manager
