PE Lesson Kit

Dear Parent/Carer,

In a bid to make sure that the current precautions in place for COVID-19 do not impact on the health and wellbeing of students at Newsome, whilst also keeping students and staff safe, we are changing the requirements for PE kit in the short term so that students are not needing to change kit in school. This is following government guidelines that indicates the use of changing rooms should be avoided. We are still going to be teaching students outdoors as much as possible for their core PE lessons but as we all know, the British weather can be unpredictable at times.

Therefore, on PE days, students **will not** be required to bring their full PE kit, but **will need** to bring their **trainers** (they may get muddy so a plastic bag to store them in is also recommended) an **extra jumper**, and ideally a **raincoat/pack away jacket**. We will not take students out in extreme weather. Activities will be tailored to match the change in clothing.

If you have any questions or queries, please do not hesitate to get in touch.

Yours faithfully,

Miss E Cole

Head of CAPE
