

## TRANSITION

22nd May 2020

Dear prospective Parents and Carers,

I Write to follow-up on my initial letter this week - hopefully the vast majority have received this by post also.

This Friday would normally be the end of the current half-term and I wanted to make additional contact so that you know our thoughts and indeed efforts are with you before some of you begin to return to school on June 1st.

I understand that there will be mixed feelings and questions around what your child will be doing in their remaining time at Junior school and indeed what and how they will be prepared for their transition to secondary school. Our Transition Team is currently planning to ensure there are no lost opportunities and rest assured we will be in touch as best we can to support this process.

In the meantime, please use the dedicated link set up for you to support anything relating to transition.
