Dear Parents/Carers,

We are excited to announce that we have launched a twitter account which will work alongside our fantastic website to improve our communication with parents, feeder schools and students. This will also help with improving PR, whilst ensuring false or misinformed dialogue is kept to a minimum.

We encourage you to follow our account for regular updates and information to ensure you are fully informed of any news and upcoming events.

Below are the official account details and a screenshot of our homepage;
